

Pre-register online for your delivery.

Pre-register for your hospital maternity stay at Memorial Hermann by following the steps below. You can complete the process around week 28 of pregnancy or based on your provider's recommendation.

How to pre-register.

To pre-register, patients are required to create a My Memorial Hermann™ account. This secure online portal allows you to access the necessary forms and conveniently complete the pre-registration process from home or work.

Once you've logged into your My Memorial Hermann account, click the menu button and select "Register for My Delivery."

If you don't have a My Memorial Hermann account, you can create one by following the instructions at: **memorialhermann.org/mymh** or scan the QR Code.

If you need help, call our support line at **713.222.CARE (2273)** or email us at **DigitalSupport@memorialhermann.org**.

What happens after I pre-register?

A member of the preadmissions team will follow up with you by phone to confirm your pre-registration and go over any questions you may have. They may also talk with you about delivery-related costs.

Registration for international patients.

If you are an international patient, a customer service representative can assist you personally with your arrangements. To pre-register, please contact International Services.

The International Services Center is open from 7:30 a.m. to 5 p.m. CT. For more information, please call **800.790.7890** or **713.704.5515**.
